

IF YOUR BUILDER WANTS TO USE A LIGHT WEIGHT ALTERNATIVE TO...

LISTEN TO WHAT AN INDEPENDENT AUTHORITY HAS TO SAY.

One of the world's leading authorities on passive solar energy housing, Mr Garry Baverstock B. Arch., R.A.I.A., the founder of the Solar Energy Information Centre, and Member of the A.N.Z. Solar Energy Society WA says;

"For the most effective wall material for housing in Perth and surrounding districts, I would advise

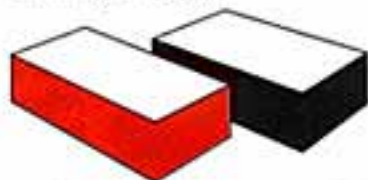

using double clay bricks to give the mass required for the best heating effect in winter and cooling in summer."

Obviously, the majority of Perth builders agree with him - they only use double clay brick in the homes they build. So, if your builder wants to use some other type of internal walling, take the advice of the experts, and ...
